PROFESSIONAL SUMMARY

Product engineer and creative technologist with 8+ years shipping web apps across startups, agencies, and enterprise. Combined strong UX judgment with full-stack engineering across frontend, backend, APIs, and databases. Expert in LLM-powered agentic workflows and cost-aware model routing via OpenRouter.

EXPERIENCE

Worx4u (formerly Thigbe) Fort Worth

Full Stack Developer

Sep 2026 – Present

Developer II, UI/UX (Product Engineer)

Apr 2026 – Sep 2026

- ✦ Ship front-end and back-end production features used daily by both customers and back-office agents, including Python services, using AI-assisted development with test workflows built from real customer use cases.
- ✦ Built an interactive API platform for external utility developers.
- ✦ Designed customer signup flows for a Retail Electricity Provider using ORDS, APEX, and PL/SQL.
- ✦ Created Backend Mirror: a git-versioned backend artifact representation for AI context and traceability.
- ✦ Drove identity management, SSO, and deterministic local dev environments across the product suite.

VS Code · Claude · Factory AI · Oracle Database · PL/SQL · ORDS · APEX · Git · React · TypeScript · Python

Co-Founder, Technical Director

Oct 2025 – Present

Lucent Wash · Consumer Services Fort Worth

- ✦ Built the full customer platform — marketing site, booking, scheduling, auth, and SMS reminders.
- ✦ Designed end-to-end customer experience and established deployment pipeline and operational tooling.

Hermes Agent · OpenRouter · Next.js · TypeScript · React · Supabase · Vercel · Stripe · Resend · Tailwind CSS · GitHub Actions

Founder

Mar 2025 – Present

WeWrite, Inc. · Consumer Social Fort Worth

- ✦ Built and shipped product for a social writing platform where pages raise funds, using AI coding agents throughout.
- ✦ Migrated JavaScript to TypeScript and introduced a Firebase API layer for maintainability and scalability.

Next.js · TypeScript · React · Firebase · Vercel · Claude · Resend · Stripe · React Native · Expo

Product Designer

Jun 2024 – May 2025

Turbo Design · Agency NYC

- ✦ Ramp Business Corporation: Improved hotel bookings, car rentals, and flight booking UX on the travel team for a corporate expense management platform.
- ✦ Vondy: Designed engagement-focused features and prototypes that supported an investor raise.
- ✦ Precision AI: Designed core UX flows for PE acquisition discovery.

Figma · Figma Prototypes · Framer · Origami

Product Designer

Jul 2023 – May 2024

Whop · Consumer Social NYC

- ✦ Redesigned core navigation and user flows, evolving a transactional storefront into an engagement platform.
- ✦ Produced high-fidelity designs, user flows, and prototypes for iOS and web. Built a theme-ready color-token system.

Figma · Figma Prototypes · Design Systems · Components · Linear

Product Designer

Jun 2017 – Jan 2023

ParkHub · Enterprise (acquired by JustPark) Dallas

- ✦ Designed BI, operations-management, and iOS POS applications for parking operations.
- ✦ Partnered cross-functionally to reorganize the design system. Mentored a junior designer.

Figma · Figma Prototypes · Design Systems · Components · Jira
